RESEARCH EXPERIENCE

Poom Family Project | ***Data Analyst*** 2025–Present
- 2025 cohort (46 elementary and middle school students): supported program planning, analyzed pre–post outcomes, and coded 46 case reports; self-directedness increased significantly ($p = .019$), with larger gains among youth from single-parent households ($p = .049$).
- 2026 cohort (newly enrolled and continuing children): serving as data analyst; conducting a three-wave (pre, mid, post) assessment of self-directedness, childhood depression (CDI), and family cohesion (FACES-III cohesion subscale) (analysis in progress).

Kwangwoon University | *Master's Thesis Researcher* 2022-2024
- Designed and implemented a seven-session group coaching intervention, including participant recruitment, pilot testing, program refinement, and two-week follow-up assessment.
- Structured the comparison condition to differ from the intervention in only two sessions, isolating the contribution of a targeted program component.
- Applied a three-group quasi-experimental design (experimental, comparison, control; $N = 24$) and conducted reliability analyses, one-way ANOVA (baseline equivalence), paired and independent t tests, and mixed ANOVA using SPSS; grit showed a significant group-by-time improvement, while self-directed learning effects were not significant.

Pet Loss Syndrome Support Project | *Researcher & Program Developer* 2023–2025
- Conducted a literature review and semi-structured interviews with individuals who had experienced and recovered from pet loss, followed by structured individual and focus group interviews to identify their support needs.
- Designed and delivered a needs-based psychoeducational support program grounded in these findings, under the supervision of a Ph.D.-level clinical psychologist.

Kwangwoon University | *Undergraduate Researcher* 2019
- Co-developed the Happiness Habit Scale (26-item pool; 163 young adults) using item, reliability, and exploratory factor analyses in SPSS, yielding a 15-item, three-factor measure (Agency, Positive Perception of Adversity, Interpersonal Relationships).
- The initial 26-item scale showed Cronbach's $\alpha = .808$ and a significant positive association with the Satisfaction With Life Scale ($r = .399$, $p < .001$).

Kwangwoon University | *Undergraduate Researcher* 2019
- Investigated whether perspective-taking and internal vs. external attribution increase multicultural acceptance ($N = 108$) using a 2 × 2 between-subjects, posttest-only control group experiment designed to reduce demand characteristics.

- Analyzed data with two-way ANOVA in SPSS; neither manipulation had significant main or interaction effects, but gender differences were significant. As first author of the unpublished report, identified unclear stimulus materials and high data exclusion as limitations.

PRESENTATIONS AND ACADEMIC EXCHANGE

National Taiwan Normal University (NTNU) Academic Exchange, Taipei | *Presenter* Aug 2024

- Presented master's thesis research in English and participated in a small-group academic exchange with doctoral students, faculty, and researchers in education and educational psychology.

Korean Coaching Psychology Association Winter Conference | *Oral Presenter* Feb 2024

- Presented master's thesis research on the effectiveness of a grit-enhancement group coaching program for upper-elementary school students.

PROFESSIONAL AND APPLIED EXPERIENCE

Sky-Dream Coaching Psychology Center | *Academic Coach & Youth Counselor* Feb 2022–Present

- Plan and deliver school- and community-based psychological support projects with social welfare centers, schools, and education offices, from program design to outcome evaluation (see projects below).
- Provide individual counseling and academic coaching for children and adolescents addressing academic motivation, school adjustment, emotional concerns, and goal setting.
- Conduct psychological assessment batteries, including K-WISC-V and other standardized measures, with administration, scoring, interpretation, feedback, and written reports; consult with caregivers on individualized support plans.

Public Shared-School program | *Program Developer & Instructor* Mar 2026–Present

Learning Psychology Program | Sky-Dream Coaching Psychology Center x Gyeonggi Provincial Office of Education

- Served middle and high school students from both urban and rural areas through a district program that pools school and community resources.
- Developed and taught the program's web-based, game-based academic coaching and AI coaching sessions.
- Assisted in delivering the remaining sessions as an assistant instructor.

Poom Family Project | *Psychological Homecare Planner & Data Analyst (2025); Data Analyst (2026)* 2025–Present

Family Function Enhancement Project for Vulnerable Children and Adolescents | Sky-Dream Coaching Psychology Center x Gimpo 2nd Comprehensive Social Welfare Center | Funded by Community Chest of Korea

- Provided home-based coaching and family-strengthening services, including parent education, for 50 elementary and middle school students from vulnerable families, including single-parent, grandparent-led, multicultural, and North Korean refugee-background households.
- Coordinated wraparound supports (meal assistance, educational materials, multicultural-language education, and referrals to clinical mental health services) with local education, family-support, child-protection, foreign-resident, and childcare agencies in Gimpo.
- Supported program planning and pre/post outcome evaluation (see Research Experience), and co-authored a program book (2025) documenting project outcomes and participants' stories, produced for the funder and welfare center and not publicly distributed.

Green Friends School | *Assistant Instructor & Project Management Assistant* Nov 2025

Cognitive Coaching Group Program | Sky-Dream Coaching Psychology Center x Gimpo 2nd Comprehensive Social Welfare Center | Funded by Community Chest of Korea

- Assisted in coordinating and delivering a five-session group program for seven middle school students with borderline intellectual functioning, targeting emotional awareness and expression, communication, self-understanding, and adaptive functioning.
- Co-administered pre/post BGT, KFD, and HTP; post-program observations showed more sustained attention, task completion, and response consistency.

Education Office-Supported Youth Mentoring | *Psychological Assessment & Mentoring Coach* Jun 2025

Collaboration with a local Education Office, Gimpo Social Welfare Center, and Sky-Dream Coaching Psychology Center

- Provided brief mentoring and structured card-based conversations on emotions and needs for two adolescents with borderline intellectual functioning, including one out-of-school youth.
- Administered BGT, HTP, KFD, and J-TCI and prepared individualized psychological evaluation reports integrating interviews, behavioral observation, assessment findings, and support recommendations.

Hwanggok Elementary School | *Program Developer & Lead Instructor* May 2025

Academic Motivation Enhancement Program | Independent engagement commissioned by the school

- Commissioned directly by the school to independently design and deliver a four-module, activity-based program for a third-grade class targeting self-directed learning, academic motivation, learning barriers, and individualized learning strategies; developed the curriculum and original instructional materials.
- Provided school consultation after a student–teacher conflict, integrating a game-based anxiety measure, personality screening, and classroom observation into a psychological report.

Pet Loss Syndrome Support Project | *Project Manager & Instructor* 2023–2025

- Managed an annual psychoeducational support program for individuals grieving the loss of a companion animal, including program planning, group facilitation, volunteer coordination, and grief-support materials.
- Integrated research findings on grief, attachment, and coping into program materials and an ISBN-registered eBook (see Publications).

Kwangwoon Coaching Psychology Institute x "Cool Summer Night" | *Psychological Coach* 2023

- Provided six-session, strengths-based coaching to five adult clients as one of 33 graduate-level coaches (103 clients; PHQ-9-screened intake) in partnership with a psychology content creator.

Kwangwoon University Student Self-Direction Coaching Project | *Psychological Coach* 2022

- Coached two first-year students admitted through equity-focused admission tracks (six 1:1 sessions) as one of 15 coaches; the program showed significant pre/post gains in self-direction, self-efficacy, and college adjustment (n = 29, all p < .01).

TEACHING AND MENTORING EXPERIENCE

Private English & Academic Tutoring | *Tutor* 2016-Present

- Provide individualized English grammar, reading, and writing instruction to more than 20 students, primarily those with low academic motivation or disengagement from English learning, including students with ADHD or borderline intellectual functioning (diagnosed or suspected).
- Tailor pacing, repetition, task structure, and scaffolding to each student's learning needs.

Gangbuk Youth Center After-School Program | *Guest Instructor* Sep-Dec 2023

- Facilitated psychology-based after-school activities for approximately 20-30 youth participants.

Kyungwon Middle School After-School Program | *Instructor* Sep 2022-Dec 2023

- Used guitar instruction and mentoring to engage students at risk of school avoidance, emphasizing persistence, confidence, and positive school participation.

SELECTED PROFESSIONAL DEVELOPMENT

Korean School Psychology Association Fall Conference | Attendee Nov 2026 (scheduled)
Korean Clinical Psychology Association Fall Conference | Attendee Oct 2026
Korean Coaching Psychology Association Summer Conference | Attendee Aug 2026
CNC Cognitive-Behavioral Research Institute Seminar | Participant Feb 2024-Feb 2026

- Topics included adolescent development, academic counseling, learning competency assessment, and ecological approaches

Korean Coaching Psychology Association Summer Conference | Attendee Jun 2024
Korean Coaching Psychology Association Winter Conference / Fall Special Lecture | Attendee Feb 2023 / Nov 2022

CERTIFICATIONS AND SPECIALIZED TRAINING

Clinical Psychologist, Level 2 – National Qualification, Republic of Korea Feb 2022
Youth Counselor, Level 3 - National Qualification, Republic of Korea Feb 2022
COYAD (Community Youth Against Drugs) Instructor Program (English-medium) - Completed Jan 2025
TCI Training - Basic and Intermediate Levels Dec 2023 / May 2024
Coaching Psychologist Certification Training - Completed Jul 2022

SERVICE AND MILITARY EXPERIENCE

Teacher and Mentor for Elementary and Middle School Students | *Church Volunteer* Aug 2024-Present

- Teach and mentor elementary- and middle-school-aged students in a group setting and provide supportive guidance related to academic, emotional, and behavioral concerns.

Seoul Juvenile Classification Review Center | *Cultural-Arts Volunteer Performer* Jun & Nov 2025

- Participated in two outreach performances for justice-involved adolescents through band ensemble and original-song performance, storytelling, and an on-camera interview emphasizing resilience, reflection, and positive future orientation.
- Contributed to a collaborative program organized by the Ministry of Justice and Miracle OK Language Institute, a nonprofit association.

Seocho Mabul Hero Supporters | ***Drug Prevention Supporter*** 2025

- Contributed to youth drug-prevention campaigns through Seocho District's Mabul Hero initiative, the first youth drug-prevention supporters program launched by a local government in South Korea.

Republic of Korea Army | *Peer Counselor* Sep 2020-Sep 2021

- Provided peer-based emotional support and guidance to fellow soldiers, helping peers navigate personal stressors and connect with appropriate support when needed.

SELECTED COMMUNITY IMPACT AND MEDIA COVERAGE

Seoul Juvenile Classification Review Center Cultural-Arts Outreach Jun/Nov 2025

- Performances covered by LawIssue (Jun 20), The AsiaN (Jun 22), Kyeongin Ilbo (Jun 22), and The AsiaN (Nov 28).

Seocho Mabul Hero Supporters Apr-Oct 2025

- Drug-prevention initiative covered by Seocho Times (Apr 7), Seoul Ilbo (Apr 6), Seocho Shinmun (Apr 5), Sun News (Apr 4), Yonhap News Agency (Apr 4), and OBS News (Apr 3).

Pet Loss Syndrome Support Project | Featured in two *Kuki News* articles Jan 31 & Feb 2, 2024
